CCU REPORTS CONSOLIDATED FIRST QUARTER 2012 RESULTS¹

Santiago, Chile, May 2, 2012 – CCU announced today its consolidated financial results for the first quarter ended March 31, 2012:

- Consolidated volume grew 8.8%, driven by our operations in Chile (12.5%), partially compensated by lower volumes in CCU Argentina (-1.9%). All segments in Chile contributed to this growth: Spirits increased 25.4%, Non-alcoholic beverages 18.6%, Wines 5.8%, and Beer Chile 5.6%.
- Total Net sales increased 16.2%, as a result of higher consolidated volume and higher average price (7.2%).
- Normalized EBIT grew 6.1% driven by higher Gross profit (15.2%), partially compensated by higher MSD&A per hectoliter (10.4%).
- Normalized EBITDA increased 7.0%, and the normalized EBITDA margin was 24.6%, which is 210 bps lower than Q1'11.
- Normalized Earnings per Share increased to 126.3 CLP per share from 117.6 CLP in Q1'11.

Key figures (CLP million)	Q1'12	Q1'11	Change	Change before EI
Volume (Hl)	5,407,590	4,970,380	8.8%	
Net sales	281,482	242,263	16.2%	
EBIT	56,446	65,896	-14.3%	6.1%
EBITDA	69,280	77,415	-10.5%	7.0%
Net income	40,225	45,515	-11.6%	7.4%
Earnings Per Share	126.3	142.9	-11.6%	7.4%

¹ For an explanation of the terms used please refer to the Glossary in Further Information and Exhibits. All comments refer to Q1'12 figures compared to Q1'11, under IFRS. Due to the exceptional profit generated by the settlement of the insurance claims related to the 2010 earthquake during Q1'11 (CLP 12,603 million at EBIT level and CLP 8,059 million at Net income level), normalized performance measures are a better indicator for the quarter's results. Figures have been rounded in tables and exhibits and may not sum exactly the total.

COMMENTS FROM THE CEO

We are very pleased with CCU's consolidated volume growth of 8.8% considering an increased competitive environment in most of our segments. Nevertheless, we are not satisfied with the 7.0% increase in the normalized EBITDA of the first quarter, which has a lower rate than other periods with similar level of volume growth, consequently decreasing EBITDA margin 210 bps.

The consolidated volume grew 0.4 MHI to 5.4 MHI driven by our operations in Chile (12.5%), partially compensated by the impact of a lower volume in CCU Argentina (-1.9%). All categories in Chile contributed to this growth, highlighting the Non-alcoholic beverages segment which grew 18.6% compared to Q1'11. This confirms the good *momentum* of the segment, as well as of Spirits which grew 25.4%, reflecting a successful integration of Pernod Ricard products.

Total Net sales increased 16.2% to CLP 281,482 million and the consolidated average price per hectoliter increased 7.2%. Excluding CCU Argentina, prices in Chile increased 2.2%, not enough to compensate the 3.8% inflation of the period, mainly due to stronger competition in Modern Trade.

The normalized EBITDA increased 7.0% driven by higher Gross profit (15.2%), partially compensated by a 20.1% increase in MSD&A. Normalized EBITDA margin was 24.6%, which is 210 bps lower than the normalized EBITDA margin in Q1'11, mainly explained by pressures in price and cost in Beer Chile (-250 bps), Non-alcoholic beverages (-190 bps) and CCU Argentina (-150 bps). In all, normalized Net income grew 7.4% to CLP 40,225 million.

Looking forward, we are facing a scenario with a number of challenges which can affect our results; (1) increased competitive environment in Chile, (2) the higher price of fuel in Chile and in Argentina, (3) the lower consumption dynamism in Argentina and (4) the impact in a number of our segments of the new driving law which reduced the limit of blood alcohol content while driving from 0.5 to 0.3 grams of alcohol per litre of blood.

Following CCU's strategy based on our three pillars; profitability, growth and sustainability, we are pleased with the 8.8% volume growth of Q1'12 as it is the foundation for our future profitability, which needs to be coupled with our best efforts to restore margin levels in Chile and Argentina.

CONSOLIDATED INCOME STATEMENT HIGHLIGHTS (Exhibit 1)

NET SALES

Q1'12 Total Net sales increased 16.2% to CLP 281,482 million as a result of a 7.2% higher average price and 8.8% higher consolidated volumes. Volumes increased in the following segments: Spirits 25.4%, Non-alcoholic beverages 18.6%, Wines 5.8%, and Beer Chile 5.6%. These volume increases more than compensate the 1.9% decrease in CCU Argentina. The higher average price is mainly explained by a 24.1% increase in the average price of CCU Argentina, affected also by F/X conversion and a change in mix, an increase of 20.0% in Spirits due mostly to change in mix as we begun to distribute the Pernod Ricard products, 4.4% in Wines, 3.2% in Non-alcoholic beverages and 1.6% in Beer Chile.

Net sales by segment

	Net sales (million CLP)				
	Q1'12	Mix	Q1'11	Mix	Change

TOTAL	281,482	100.0%	242,263	100.0%	16.2%

GROSS PROFIT

Q1'12 Increased 15.2% to CLP 155,208 million as a result of 16.2% higher Net sales, partially offset by 17.4% higher Cost of sales which amounted to CLP 126,273 million. As a percentage of Net sales, Cost of sales slightly increased from 44.4% in Q1'11 to 44.9% in Q1'12. Consequently, the Gross profit as a percentage of Net sales decreased from 55.6% in Q1'11 to 55.1% this quarter.

EBIT

Q1'12 Decreased 14.3% to CLP 56,446 million. Normalized EBIT increased 6.1% as a result of higher Gross profit, partially compensated by higher MSD&A, which increased 20.1% in Q1'12, to CLP 99,302 million. MSD&A expenses, as a percentage of Net sales, increased from 34.1% in Q1'11 to 35.3% in Q1'12. The increase in MSD&A is mostly explained by the inflationary pressures in Argentina and higher distribution costs in Chile. Normalized EBIT margin decreased from 22.0% in Q1'11 to 20.1% in Q1'12.

EBITDA

Q1'12 Decreased 10.5% to CLP 69,280 million. Normalized EBITDA increased 7.0% explained by higher Gross profit, partially compensated by higher MSD&A. The consolidated normalized EBITDA margin decreased from 26.7% to 24.6%.

NON-OPERATING RESULT

Q1'12 In Non-operating result we include the following: Net financing expenses, Equity and income of JVs and associates, Foreign currency exchange differences, Results as per adjustment units, and Other gains/(losses). The total variation of these accounts, when compared to the same quarter last year, is a lower result of CLP 3,040 million mainly explained by:

- **Results as per adjustment units**, which decreased CLP 743 million, mainly due to 4.4% increase of the UF value in Q1'12 compared with 2.8% UF variation in Q1'11, applied to a lower UF liability since VSPT refinanced 50% of the long term bonds with USD and Euro denominated debt.
- **Equity and income of joint ventures and associates**, which decreased CLP 203 million, mainly explained by lower results in FOODs Compañía de Alimentos CCU S.A. and Cervecería Austral S.A..
- **Other gains/(losses) and Foreign currency exchange differences**, which decreased CLP 2,473 million mostly due to losses related to hedges covering foreign exchange variations on taxes.

These results were partially offset by:

- **Net financial expenses**, which decreased CLP 379 million, from a net expense of CLP 1,853 million to CLP 1,475 million as a result of higher cash and cash equivalent balances.

INCOME TAXES

Q1'12 Income taxes decreased CLP 4,737 million mostly due to (a) the absence of the positive effect generated by the settlement of the insurance claim in Q1'11 related to the earthquake (b) a lower corporate income tax imposed in Chile² and (c) the effect of foreign exchange fluctuations on taxes compensated by a reverse sign entry in Other gains/(losses).

NON-CONTROLLING INTEREST

Q1'12 Decreased CLP 2,463 million to CLP 1,858 million mostly due to the lower results in Viña San Pedro Tarapacá S.A., mainly due to the absence of the positive effect generated by the settlement of the insurance claim related to the earthquake.

NET INCOME

² In 2012, the tax rate decreased from 20.0% to 18.5%.

PRESS RELEASE

Q1'12 Decreased CLP 5,290 million. Normalized Net income increased CLP 2,770 million to CLP 40,225 million due mostly to a higher EBIT partially compensated by a lower Non-operating result.

EXCEPTIONAL ITEMS (EI)

During Q1'11 CCU recorded as Exceptional items at EBIT level the settlement of the insurance claims related to the 2010 earthquake in Chile, which generated a positive effect of CLP 12,603 million.

The following schedules show the EBIT/EBITDA and their margins YTD, both after Exceptional items:

	EBIT (million CLP)			Mix	EBIT margin

BUSINESS UNITS HIGHLIGHTS (Exhibit 2)**BEER CHILE**

Net sales increased 7.5% to CLP 93,311 million as a result of 5.6% higher sales volumes and 1.6% higher average prices.

EBIT decreased 16.0% to CLP 28,685 million. Normalized EBIT decreased 0.5% from CLP 28,819 million despite of higher Net Sales due to higher Cost of sales and MSD&A expenses. Cost of sales increased 12.2% to CLP 37,654 million. As a percentage of Net sales, Cost of sales increased from 38.7% in Q1'11 to 40.4% in Q1'12 mainly due to a change in mix. MSD&A expenses increased 10.6% to CLP 27,020 million mostly due to higher distribution and marketing expenses. As a percentage of Net sales, MSD&A increased from 28.2% to 29.0% in Q1'12. The normalized EBIT margin decreased from 33.2% to 30.7% in Q1'12.

EBITDA decreased 13.5% to CLP 32,876 million. Normalized EBITDA increased 0.6% from CLP 32,690 million and the normalized EBITDA margin decreased from 37.7% to 35.2%.

Comments Beer Chile faced greater competition in Q1'12, particularly in Modern Trade. We focused on a differentiating commercial strategy by channel which allowed us to grow volumes in supermarkets at double digits and continue growing positively in the traditional channel. Since the enactment of the new alcohol law, the on-premise channel experienced a slight decline in growth compared to the same period of last year, partially compensated by favorable weather conditions.

Consistent with CCU's long term brand-building strategy, special effort was made to strengthen the brand equity of Royal Guard. In all, prices were adjusted only 1.6%, not enough to compensate the inflation of the period.

CCU ARGENTINA

Net sales measured in Chilean pesos, increased 20.9% to CLP 63,956 million, as a result of 24.1% higher average prices, due to changes in mix and price increases in order to compensate the higher costs and expenses.

EBIT measured in Chilean pesos, increased 11.6% to CLP 10,187 million in Q1'12, as a consequence of higher Gross profit, partially compensated by higher MSD&A. Gross profit increased due to higher Net sales, enough to compensate the higher Cost of sales, which increased 16.8% to CLP 24,216 million this quarter. The Cost of sales increase is explained mainly by higher cost of raw material and higher personnel costs. As a percentage of Net sales, Cost of sales decreased from 39.2% to 37.9% in Q1'12. MSD&A expenses increased 28.4%, from CLP 23,091 million to CLP 29,649 million, due to higher distribution and personnel costs, as well as inflationary pressures. As a percentage of Net sales, MSD&A expenses increased from 43.7% to 46.4%. The EBIT margin decreased from 17.3% in Q1'11 to 15.9%.

EBITDA increased 11.7% to CLP 11,781 million this quarter and the EBITDA margin decreased from 19.9% to 18.4%.

Comments Consolidates volumes for CCU Argentina decreased 1.9%, and following the beer industry trend, beer volumes decreased 2.2%. Despite this decline in volumes, Argentina delivered good results due to a higher average price and good cost management in an inflationary environment.

NON-ALCOHOLIC BEVERAGES

Net sales increased 21.7% to CLP 80,489 million due to higher volumes of 18.6% and 3.2% increase in the average price.

EBIT increased 0.7% to CLP 12,855 million. Normalized EBIT increased 11.5% from CLP 11,533 million due to higher Gross profit offsetting the higher MSD&A. Cost of sales increased 18.9% to CLP 38,280 million mainly due to cost increases in raw material, as well as in energy and personnel costs. However, Cost of sales, as a percentage of Net sales, decreased from 48.7% to 47.6%. As a consequence, gross margin increased from 51.3% to 52.4%. MSD&A increased 26.2% to CLP 29,425 million mainly due to higher distribution and personnel expenses, while as a percentage of Net sales, MSD&A increased from 35.3% to 36.6%. Normalized EBIT margin decreased from 17.4% to 16.0%.

EBITDA increased 2.2% to CLP 15,636 million. Normalized EBITDA increased 11.1% from CLP 14,070 million and the normalized EBITDA margin decreased from 21.3% to 19.4%.

Comments Volumes had a remarkable performance as a consequence of higher market share in a growing industry. Volumes in Water increased 28.8%, Nectars 24.1%, and Soft drinks 13.8%. This high volume growth caused a strain on the operation and as a consequence we incurred higher expenses during the quarter. Nevertheless, although the 3.2% average price increase did not fully compensate the inflation of the period, overall we were able to deliver better results.

WINE

Net sales increased 9.7% to CLP 31,199 million due to an increase in volume of 5.8%, excluding bulk wine, and a higher average price of 4.4%. Export prices in USD increased 0.1% in Chile and decreased 1.4% in Argentina. The Chile domestic average price increased 11.3% as a result of a price increase in 2011 and a better sales mix.

EBIT decreased from CLP 6,913 million to CLP 846 million in Q1'12. Normalized EBIT decreased 19.5% from CLP 1,052 million due to higher Cost of sales not fully compensated by higher Net sales. The normalized EBIT margin decreased from 3.7% in Q1'11 to 2.7% in Q1'12.

EBITDA decreased to CLP 2,521 million. Normalized EBITDA decreased 3.2% from CLP 2,604 million to CLP 2,521 million and the normalized EBITDA margin decreased from 9.2% to 8.1%.

Comments VSPT volumes had a good performance in the first quarter of the year, coupled with a higher average price than in Q1'11. Despite this, the Company was not able to offset the higher costs of grapes, other raw materials and energy in Chile, and the lower results in Finca La Celia, our Argentine subsidiary.

VSPT has been focusing on pricing discipline, especially in the domestic market. This is in line with VSPT's strategy to improve long-term profitability. In addition, VSPT is in the process of implementing the optimum footprint of its wine facilities, in order to improve the ROCE.

SPIRITS

Net sales increased 45.6% to CLP 12,873 million as a result of 20.0% higher average price and 25.4% higher volume, both positively affected by the distribution of the new businesses acquired in 2011.

EBIT decreased 25.1% to CLP 948 million. Normalized EBIT decreased 1.1% from CLP 959 million mainly due to higher Cost of sales and MSD&A, which did not compensate higher Net sales. Cost of sales increased 69.4% from CLP 4,626 million to CLP 7,839 million, mostly due to higher cost of raw materials and the higher cost per unit of the new businesses. MSD&A expenses increased 25.2% to CLP 4,082 million due to higher marketing and distribution costs and the incorporation of new businesses, however as a percentage of Net sales, MSD&A decreased from 36.9% to 31.7%. The normalized EBIT margin decreased from 10.8% to 7.4%.

EBITDA decreased 12.7% from CLP 1,655 million to CLP 1,445 million. Normalized EBITDA increased 7.2% from CLP 1,348 million, while the normalized EBITDA margin decreased from 15.2% to 11.2%.

Comments Volumes had a good performance in Q1'12, growing 25.4% compared to Q1'11, driven by higher pisco sales and the incorporation of new businesses. CPCh had a higher average price as a result of a better mix and price in the traditional pisco business, and due to Pernod Ricard products, which did not compensate the higher cost of raw materials (mainly due to the incorporation of Bauzá) and the higher distribution costs.

GLOSSARY

Business Segments

Business segments are reflected in the same way that each Strategic Business Unit (SBU) is managed. Corporate shared services and distribution and logistics expenses have been allocated to each SBU based on Service Level Agreements. The non-allocated corporate overhead expenses and the result of the logistics subsidiary are included in "Other/Eliminations".

The Non Alcoholic segment includes soft drinks (soft drinks, tea, sports and energetic drinks), nectars and water (purified and mineral). CCU Argentina includes beer and others (cider, spirits, and domestic wine from Tamarí sales). Wine includes Chile domestic, Chile export and Argentina (export and domestic, except sales from Tamarí).

Cost of sales

Formerly referred to as Cost of Goods Sold (COGS), Cost of sales includes direct costs and manufacturing expenses.

Earnings Per Share (EPS)

Net profit divided by the weighted average number of shares during the year.

EBIT

Stands for Earnings Before Interest and Taxes, and corresponds to profit before Taxes, Interests, Results as per adjustment units, Equity and income of JVs and associates, and profits/(losses) on foreign currency exchange differences.

EBITDA

EBITDA represents EBIT plus depreciation and amortization. EBITDA is not an accounting measure under IFRS. When analyzing the operating performance, investors should use EBITDA in addition to, not as an alternative for Net income, as this item is defined by IFRS. Investors should also note that CCU's presentation of EBITDA may not be comparable to similarly titled indicators used by other companies.

Exceptional Items (EI)

Formerly referred to as Non recurring items (NRI), Exceptional items are either income or expenses which do not occur regularly as part of the normal activities of the Company. They are presented separately because they are important for the understanding of the underlying sustainable performance of the Company due to their size or nature.

Marketing, Selling, Distribution and Administrative expenses (MSD&A)

MSD&A include marketing, selling, distribution and administrative expenses.

Net Debt

Total financial debt minus cash & cash equivalents.

Net Debt / EBITDA

The ratio is based on a twelve month rolling calculation for EBITDA.

Net Income

Net profit attributable to parent company shareholder as per IFRS.

Normalized

The term "normalized" refers to performance measures (EBITDA, EBIT, Net income, EPS) before exceptional items.

ROCE

ROCE stands for Return on Capital Employed.

Organic growth

Growth which excludes sales from new endeavors of the last twelve months.

UF

The UF is a monetary unit indexed to the CPI variation.
